CAVO

FROR 450/750 V (FLEXIRETOX[®])

CARATTERISTICHE:

Cavi multipolari a corda flessibile di rame ricotto, con isolamento e guaina in PVC non propagante l'incendio e a ridotta emissione di gas corrosivi (a norme CEI 20-20 p.q.a. e 20-22 II).

Costruzione: 2 - 3 - 4 - 5 conduttori
 Sezioni: 1 - 1,5 - 2,5 - 4 mm²
 Tensione nominale: 450/750 V
 Colori: grigio chiaro

Cavi a marchio IMQ

UTILIZZO:

Adatti sia per posa fissa che per servizio mobile, per installazione all'interno di locali secchi o umidi e, per uso intermittente e temporaneo, all'esterno.

In particolare, appositamente studiati per soddisfare anche le prescrizioni richieste dalle norme: CEI 64-2 - Impianti elettrici nei luoghi con pericolo di esplosione o di incendio.

CEI 64-10 - Impianti elettrici nei luoghi di pubblico spettacolo e di trattenimento.

Company profile

An Italian company with more than 60 years of experience is specialized in the production of electrical equipment with a wide variety of products for electrical systems and electronics. All items have Italian design and CE marking and are traditional electrical equipment (switches, sockets) and special electrical devices for caravan and boats/yachts. The company is not only a producer of electric appliances for domestic use but it also develops projects for clean energy using advanced technologies but accessible cost.

Qualifications
